

TREE CITY USA

Residents of Prairie du Chien should be proud to live in a community that makes the planting and care of trees a priority and in doing so we are recognized as a member of Tree City USA. Our community joins more than 3,400 other Tree City USA's in the nation! The Tree City USA program is sponsored by the Arbor Day Foundation in partnership with the US Forest Service and the National Association of State Foresters. As a result of our commitment to manage an effective urban forest we know trees are vital to the public infrastructure providing numerous environmental, social, and economic benefits to Prairie du Chien.

Planning & Planting as We Grow Together

MEMORIAL TREE PLANTING PROGRAM

The tree planting program efforts of the St Feriole Island Memorial Gardens provide a way for loved ones to recognize individuals and family members in a special way, making our community greener! Many individuals have provided hundreds of trees through our park and the Island. We need to replace trees that have been removed and it is an on-going process to make our community a better place. There are over 700 new trees on the Island alone, that have been planted and maintained over the past 20 years. These things just do not happen as it has been the efforts of hundreds of people however we can't stop there! Tree planting and management will only happen if we all move forward to help make our corner of the world a special place.
